

110 Questions UCSF Students Were Asked In A Residency Interview

This list of residency interview questions is the result of one of **Phi Lambda Sigma (PLS), Beta Beta Chapter's*** professional development initiatives for fellow UCSF School of Pharmacy students. Each year PLS surveys pharmacy students who had residency interview about what questions they were asked. Below is a summary of those survey responses, bundled by question type. For the full document, The Students Guide to Savvy Residency Interviewing, contact PLS directly at: <http://www.ucsf.edu/pls/>.

Interview opening questions.

100. Do you think that grades have anything to do with how well you perform in clerkships?
101. Do you think that grades have anything to do with how well you perform in your career?
102. If you were stuck on Mars, what 2 drugs would you bring?
103. Is there anything we have not talked about that you would like to discuss?
104. Commitment to the profession/Understanding of the profession.
105. What was the last pharmacy related article that you read recently?
106. What do you do outside of school to learn and contribute to the profession of pharmacy?
107. What are the implications of the recently enacted Medicare Modernization Act that took effect in 2006?
108. What is one interesting issue facing pharmacy today?
109. What do you think is a major problem facing our profession?
110. What do professional organizations do?

***Phi Lambda Sigma (PLS)** is a national pharmacy leadership society comprised of pharmacy students, practitioners, and professors. The purpose of Phi Lambda Sigma is to promote and support the development of leadership qualities among pharmacy students. The Beta Beta chapter at the University of California, San Francisco strives to encourage pharmacy students to take an active role in the profession of pharmacy and its future. It also recognizes and supports those who have demonstrated leadership in the profession of pharmacy. To learn more about PLS, please visit <https://philambdasigma.org/>
