Exploring and preparing for faculty careers

What type of faculty position is right for you?

What skills do you need to get a faculty position in the U.S.?

Workshop Description:

In this workshop, we will explore the different types of faculty positions available to life scientists in the U.S., and the skills they require, including research-intensive (R1) institutions, primarily undergraduate institutions (PUIs), liberal arts colleges, master's granting universities, and community colleges. Participants will use the Academic Career Readiness Assessment (ACRA) framework to assess their level of preparedness for different positions, and to set professional development and research goals for the rest of their training. The ACRA framework was developed with the input from faculty members at diverse types of institutions, and with the support of a Burroughs Wellcome Fund grant.

Learning Outcomes:

By the end of the workshop, participants should be able to:

- Describe the different types of academic institutions in the US
- Identify institutions where they would like to work as a faculty and describe hiring criteria
- Assess their level of readiness for a position
- Prioritize career development activities to attain their target positions

Dates and times:

Friday, January 26, 2018 from 12:15 p.m. to 3:15 p.m. at Mission Bay in Gen N-114
Register through Eventbrite [1]

Speakers:
- Laurence Clement, Program Director, Academic Career Development, OCPD
- Bill Lindstaedt, Assistant Vice Chancellor of UCSF's Career Advancement, International and Postdoctoral Services?

Cancellation Policy:
You must cancel at least 24 hours before the workshop to allow time for another person to register.
If you fail to show up to the event without any justification, you may be prohibited from registering to future OCPD academic career programs. To cancel, follow these instructions [2].
If you have any issues, email at allyson.spence@ucsf.edu [3] with the subject line "cancellation: workshop [date]".

For questions, please contact Laurence Clement at laurence.clement@ucsf.edu [4]
