Pharmacy Students: Start Here!

Welcome! In partnership with the School of Pharmacy, our office works with students in every stage of their career and professional development. Our goal is to teach you the information, skills and confidence to successfully navigate your career.

Where to begin? Determine what stage you're in:

1. **Self Assessment** [1]: Explore your critical factors: your values, interests, skills & preferences.
2. **Career Exploration & Decision Making** [2]: Find out how to find out what career options are available to someone with your skills and interests, and get some strategies on how to choose one.
3. **Internship, Job & Residency Search Resources** [3]: Learn how to organize your internship, residency or job search, from sample resumes/CVs and cover letters, to interview questions and compensation negotiation.
4. **Professional Skills Development** [4]: Develop communication, interpersonal and leadership skills to help you in every position.
