Welcome! Our office works with Physical Therapy students in every stage of their career and professional development. We have resources and services to help you assess yourself, explore career options, organize your job search, and develop the professional skills to succeed in your career.

Where to begin?

1. Self Assessment [1]: Explore your critical factors: your values, interests, skills and preferences.
2. Job Search Resources: [2] Learn how to organize and navigate every step of your job search, from sample resumes/CVs and cover letters, to interview questions and compensation negotiation.
3. Professional Skills Development [3]: Develop communication, interpersonal and leadership skills to help you in every position.
