

Activity #5: Writing Bullet Points for Research Experiences

Please include the following in your research experiences and bullet points:

Institution, Name of Department, City, State Abbreviation

00/20xx – 00/20xx

Position Name, Advisor: Name and Degree of Advisor/PI

Study: Title of Study

- Describe the project's **desired impact** and an overview of how you hoped to achieve it
- Include the main **responsibilities** related to the research
- Briefly describe the **outcomes** resulting from your research (manuscript in preparation, poster presentation, etc.)

Examples of Research Bullet Points

<p>Medicine</p>	<p>University of North Carolina at Chapel Hill, Lilongwe, Malawi 00/20xx – 00/20xx <i>Doris Duke Research Fellow</i>, PI: Carol Shores, MD, PhD Study: Risk factors associated with esophageal cancer in Malawi</p> <ul style="list-style-type: none"> • Improved organization of and access to newly constructed multi-institute cancer registry by analyzing electronic health record data across 3 healthcare systems • Developed a system for improving and maintaining patient enrollment in the cancer registry for project longevity and future expansion • Organized team meetings, submitted IRB approval paperwork, and recruited participant institutions • Manuscript in progress, poster presentation
<p>Pharmacy</p>	<p>UC Davis Medical Center / Pharmaceutical Care Pathway Project 00/20xx – 00/20xx <i>Research Assistant</i>, Advisor: Blanche Devereaux, Pharm.D. Study: Optimizing Quality of Care for Acute Exacerbation of Chronic Obstructive Pulmonary Disease (AECOPD) Patients</p> <ul style="list-style-type: none"> • Improved care for COPD patients and lowered hospital readmittance rates by evaluating medication-related risk factors, implementing treatment plans, and providing patient education • Reviewed charts and followed laboratory protocols for patients on reactive airway medications such as bronchodilators, steroids, theophylline, antibiotics and phosphodiesterase-4 inhibitors • Evaluated the effect of clinical pharmacist interventions in reducing medication errors and optimizing therapeutic drug monitoring • Published in the Chronic Respiratory Disease journal
<p>Dentistry</p>	<p>Los Niños De La Raza, Oakland, CA 00/20xx – 00/20xx <i>Research Assistant</i>, Advisor: Jonathan Bridgington, DMD Study: Equity in Pediatric Dentistry</p> <ul style="list-style-type: none"> • Improved understanding of healthcare disparities and access to care for low-income families in Oakland by analyzing dental care outcome data relating to preventative care and resource access • Conducted statistical analysis using R to investigate various approaches to pediatric oral health management, which included sealants, pulp therapy, space maintainers, and dental emergencies • Presented findings at the 2024 ADEA conference
