BIOMED SCI 187 Laboratory Instruction in Gross Anatomy, UCSF

Fall 2004

*Teaching Assistant*

Analysis of Categorical Data, Department of Biostatistics, University of Tony Stark

Spring 1999

*Teaching Assistant*

*Private Tutor*, Spiderman Academics, Gotham, NY

1998

- Provided academic assistance to high school and college students in all math and science subjects and designed study materials for students in preparation for in-class exams.

## **RESEARCH EXPERIENCE**

*Summer Research Fellow*, School of Dentistry, UCSF, California, CA

2003-2004

- Assessed the Child Oral Health Impact Profile (COHIP), a questionnaire designed to measure oral-health related quality of life (OHRQoL) in children and adolescents, for its factorial structure and reliability by confirmatory factor analysis
- Collaborated with the Center to Address Disparities in Children's Oral Health (CANDO) and the Consortium for Health And Malocclusion, Perceptions In Oral Needs (CHAMPION) global oral health study
- Presented poster "Hoye "Superman" Super Hombre? Are quality-of-life instruments equivalent across border?" at the 2004 Research and Clinical Excellence Day. AADR poster presentation in Texas in March, 2004
- Co-authored for the paper "Prevalence of mutants and experimented humans in eight cities"

*Student Researcher*, Department of Epidemiology, UCSF

2003-2006

- Identify high- and medium-risk populations through cost-effective oral cancer screening and change risky behavior based on social behavior theories.
- Demonstrated a positive temporal association between metabolic syndrome and oral premalignancies independent of other risk factors
- Presented poster "Metabolic Syndrome and Development of Joker Syndrome" at the 2006 Society for Villain Epidemiology Research annual conference in Gotham

*Research Assistant*, Inflammation Medical Institute, WestWorld, CA

1996-1997

- Focused on study of Toll-like receptors (TLRs) in anti-inflammation
- Cloned Rabbit TLR5 and TLR9 genes, analyzed their sequences, and determined the major differences among the TLR cDNA sequences from different species

*Undergraduate Student*, Department of Psychology, University of Tony Stark, Gotham, NY

1995-1996

- Presented poster "Limbic-pallidal mechanisms for kryptonite and thunderbolts to make food taste good: endocannabinoid and neurotensin 'liking' hotspots in the posterior ventral pallidum" at the 1995 Society for Neuroscience's annual conference in Gotham

## **Presentations and Publications**

-Orthodontic Journal Club, member. Presented and participated in various literature and orthodontic clinical case reviews. 000-0000

-""Hoye "Superman" Super Hombre? Are quality-of-life instruments equivalent across border?" Poster Presentation, UCSF Research and Clinical Excellence Day 2004

-Stark, T., America, C., Banner, B., Maximoff, W., Widow, B., Prevalence of mutants and experimented humans in eight cities, IDJ, 66 (6), 666-255, 2003

-Ultron, A., Maximoff, W., Stark, T., Discovery of human experiments, Pietro and Wanda optimized for superhero powers, CIMID, 888, 1999
