

QUALIFICATIONS SUMMARY:

- UCSF-trained pharmacy student, graduating in June 0000, with both clinical and research experience.
- Demonstrated commitment to community health, with four years of experience working with underserved populations on education and outreach programs addressing substance abuse prevention, nutrition and mental health awareness.
- Experience using Spanish language skills in a clinical capacity.

EDUCATION:

- **Doctor of Pharmacy**, School of Pharmacy, San Francisco. UC San Francisco *Expected: June 0000*
- **Bachelor of Sciences, Molecular and Cell Biology**. UC Davis 0000-0000

CLINICAL ROTATIONS COMPLETED:

Infectious Disease. Elective Inpatient Clerkship (Month-Month Year)

University of California, San Francisco Medical Center. Preceptor George Takei. Pharm.D.

- Actively participated in the infectious disease team for care of patients on consult service. Activities included daily rounds, monitored patients' laboratory values, assessment of patients' medication regimen for appropriate indication, dose, route, and duration.

Anti-coagulation and General Medicine Refill Clinics. Outpatient Clerkship (Month-Month Year)
San Francisco General Hospital. Preceptor: Nichelle Nichols, Pharm.D.

Interviewed patients to obtain medication history, monitored patients' INR, assessed need for dose adjustment, educated patients regarding warfarin therapy, including common side effects and potential drug interactions. Translated English to Cantonese for non-English speakers.

Diabetes Clinic. Outpatient Clerkship (Month-Month Year)

Ambulatory Care Center, University of California Medical Center. Preceptor: William Shatner, Pharm.D.

- Conducted patient interviews to obtain medication history, assessed need for change in medication regimen, educated patients on common drug side effects, potential drug interactions, proper diet and blood sugar monitoring.

Pediatrics. Inpatient Clerkship (Month-Month Year)

University of California, San Francisco Children's Hospital. Preceptor: Walter Koenig, Pharm.D.

- Actively participated in the pediatric renal transplant, rheumatology and immunology, and pulmonology teams in the team directed approach to drug therapy selection, drug dosing, and monitoring response to therapy. Additional responsibilities include medication history interview, pharmacokinetic monitoring, medication counseling, discharge planning, and inservice education to medical team.

Rotations To Be Completed

Drug Information Analysis Service. Elective outpatient clerkship (Month-Month Year)

University of California, San Francisco, Laurel Heights campus. Preceptors: Name Here

- Will receive drug information questions over-the-phone from health care professionals, research answers to questions from consumers, pharmacists, and health care professionals using clinical resources such as Micromedex, Facts and Comparisons, Pubmed, clinical textbooks, and Natural Medicines Database, and will construct written responses, review answers with preceptors, and communicate answers to caller.

COMMUNITY & HOSPITAL PHARMACY EXPERIENCE:

Safeway. Intern Pharmacist. Union City, CA (Month Year)

Responsibilities included receiving, transcribing verbal prescriptions, transferring prescriptions, filling and dispensing medications, counseling patients, reviewing patient medication profile for potential drug or disease interactions, and providing over-the-counter medication recommendations.

Alta Bates Medical Center. Intern Pharmacist. Davis, CA. (Month Year)

- Compounded IV admixtures in central pharmacy, chemotherapy agents for oncology satellite, and suspensions for neonatal satellite.

University Health Center. Pharmacy Volunteer. Davis, CA. (Month Year)

- Received prescriptions, restocked medications, sold over-the-counter medications.

Colby Pharmacy. Pharmacy Clerk. Davis, CA. (Month Year)

- Stocked and sold OTC medications, answered customer questions in a small, independent pharmacy.

CLINICAL RESEARCH EXPERIENCE:

Substance and Alcohol Use Patterns in the Boys and Girls Club of San Francisco

Health Policy and Management Practicum. University of California, San Francisco

Measured proportions of adolescents in the Boys and Girls Club who used alcohol, tobacco, and other drugs and compared results to proportions of adolescents in the nation, California, and San Francisco.

Colocalization of Androgen Receptors and Astrocytes in the Hypothalamus. Senior Honors Thesis Project
Breedlove/Jordan Lab, Department of Psychology. University of California, Davis

Visualized male hormone receptors present in glial cells using immunocytochemistry methods, determined location of the brain where colocalization occurred. Findings suggested glial cells may participate in steroid hormone action in the hypothalamus.

Mechanisms of Transmitter-Mediated Modulation of Calcium Channels

Summer Undergraduate Research Program. Mount Sinai Graduate School of Biological Sciences

Using biochemical techniques, investigated interaction between intracellular synaptic proteins and calcium channels in neuronal signaling.

COMMUNITY HEALTH COMMUNITY LEADERSHIP & SERVICE

Project Coordinator. UCSF Children's Health Awareness Project (Month-Current)

Along with two other leaders, responsible for planning and executing group participation in health fairs, community center presentations. Additionally we are launching a children's health-issues lecture series.

San Francisco State Health Fair. Mental Health Project (Month-Month Year)

Provided pamphlets and handouts on mental health, raised awareness of depression and anxiety disorders, encouraged the public to speak to a health care provider regarding mental health issues.

Enterprise Children's Center. Alpha Delta Chi Community Service Project (Month-Month Year)

The center is dedicated to treatment of severely disturbed children who have been emotionally, physically abused and neglected. Cooked breakfast, talked, and played with children in the center.

Volunteer, Children's Health Hut Health Fair, San Francisco (Month-Month Year)

Coordinated with medical, dental, and pharmacy students to educate disadvantaged children in an indigent area regarding a healthy lifestyle: provided education about proper nutrition, asthma, and dental hygiene.

Student Health Educator, UC Davis Poison Control Project (Month Year-Month Year)

Instructed elementary school children and parents through class presentations/health fairs on the danger of poisons, and how to recognize and respond to a poisoning. Presentations included videos, games and lectures.

Student Health Educator, UC Davis Lung Cancer Project (Month-Month Year)

Instructed elementary school children on the hazards of smoking through classroom presentations and at health fairs. Presentations included slides, showing healthy and cancerous lung specimens and games.

PROFESSIONAL LEADERSHIP & SERVICE:

- **School of Pharmacy Admissions Committee Student Member, UCSF** (Month-Month Year)
